

Good Day!

In this folder, I have uploaded two files for the discussion and conclusion sections. The first is **Navarro_EXP1_DiscussionConclusion_CPE162P**, and the second is **Navarro_EXP1(Modified)_DiscussionConclusion_CPE162P**, which is the updated version. In my first upload, I capitalized all the text in the documentation because I thought it suited the font used for engineering lettering format. However, I later remembered that one of my classmates did the same—capitalizing all the letters—and you were upset with them. So, I decided to change it to normal text.

Thank you.
